Some of the phenoxyethanol companies profiled in this report include Jiangsu Jiafeng Chemical Co. Ltd., The Dow Chemical Company, Haihang Industry Co. Ltd., Galaxy Surfactants Ltd., BASF SE, Clariant Corporation, Symrise, and Jinan Haohua Industry Co. Ltd. In this market, industrial product, and pharmaceutical product are the major product types. Lucintel forecasts that Phenoxyethanol P5 will remain the largest segment over the forecast period because of high-product preservative with less than 5ppm of phenol content which is used on a large scale in the cosmetic industry.

Within this market, home & personal care, cosmetics, pharmaceuticals, dyes and inks, and others are the major application of phenoxyethanol. Home and personal care will remain the largest segment by application type over the forecast period because the customers are becoming increasingly aware of the risks posed by different ingredients used in cosmetic products.

Asia-Pacific is expected to witness the highest growth over the forecast period because of the increasing real income and aggressive marketing strategies adopted by leading cosmetics manufacturer the product penetration is increasing across the region.
