The global two part adhesive market is expected to reach an estimated \$9.9 billion by 2030 with a CAGR of 6.2% from 2024 to 2030. The major drivers for this market are growing adoption of bio-based and water-based adhesives and rising demand for advanced adhesive solutions in industries such as automotive, construction, and electronics.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Two Part Adhesive by Segment

The study includes a forecast for the global two part adhesive by resin type, application, and region.

Two Part Adhesive Market by Resin Type [Shipment Analysis by Value from 2018 to 2030]:

Polyurethane

Epoxy

MMA

Silicone

Others

Two Part Adhesive Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Automotive

Construction

Electronics

Aviation

Others

Two Part Adhesive Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Two Part Adhesive Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies two part adhesive companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce

production costs, and expand their customer base. Some of the two part adhesive companies profiled in this report include-

Dow Chemical Company

Eastman Chemical Company

Evonik Industries

Exxonmobil Chemical

H.B. Fuller

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Two part adhesive market size by resin type, application, and region in terms of value (\$B).

Regional Analysis: Two part adhesive market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different resin types,

applications, and regions for the two part adhesive market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the two part adhesive market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the two part adhesive market size?

Answer: The global two part adhesive market is expected to reach an estimated \$9.9 billion by 2030.

Q2. What is the growth forecast for two part adhesive market?

Answer: The global two part adhesive market is expected to grow with a CAGR of 6.2% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the two part adhesive market?

Answer: The major drivers for this market are growing adoption of bio-based and water-based adhesives and rising demand for advanced adhesive solutions in industries such as automotive, construction, and electronics.

Q4. What are the major segments for two part adhesive market?

Answer: The future of the two part adhesive market looks promising with opportunities in the automotive, construction, electronics, and aviation markets.

Q5. Who are the key two part adhesive market companies?

Answer: Some of the key two part adhesive companies are as follows:

Dow Chemical Company

Eastman Chemical Company

Evonik Industries

Exxonmobil Chemical

H.B. Fuller

Q6. Which two part adhesive market segment will be the largest in future?

Answer: Lucintel forecasts that polyurethane will remain the largest segment over the forecast period due to its various qualities, such as resistance to moisture, oil, and lubricant, a broad resilience spectrum, cohesive and adhesive.
