A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Ultra Violet (UV) Lamps by Segment

The study includes a forecast for the global ultra violet (UV) lamps by type, application, and region

Ultra Violet (UV) Lamps Market by Type [Shipment Analysis by Value from 2018 to 2030]:

UV LED Lamp

UV Mercury Lamp

Ultra Violet (UV) Lamps Market by Application [Shipment Analysis by Value from 2018 to 2030]:

Medical Phototherapy

Analytical Instruments

Tanning

Water Treatment

Air Purification

UV Curing

Surface Treatment

Food & Beverages Disinfection

Biomedical

Others

Ultra Violet (UV) Lamps Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Ultra Violet (UV) Lamps Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies ultra violet (UV) lamps companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the ultra violet (UV) lamps companies profiled in this report include-

Surepure

Ushio

Heraeus

Alpha-Cure

Philips

GE Lighting

Lit

Eta Plus Electronic

Light Sources

Osram

Ultra Violet (UV) Lamps Market Insights

Lucintel forecast that UV led lamp is expected to witness highest growth over the forecast period due to its energy efficiency, longer lifespan, and reduced environmental concerns.

UV curing will remain the largest segment due to significant use of UV lamps for curing process in printing and wood coating industries.

APAC is expected to witness highest growth over the forecast period due to growing concern towards air and water quality, continuous expansion in urbanization and industrialization, and rising disposable income among population of the region.

Features of the Global Ultra Violet (UV) Lamps Market

Market Size Estimates: Ultra violet (UV) lamps market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Ultra violet (UV) lamps market size by type, application, and region in terms of value (\$B).

Regional Analysis: Ultra violet (UV) lamps market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different type, application, and regions for the ultra violet (UV) lamps market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the ultra violet (UV) lamps market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q.1 What is the ultra violet (UV) lamps market size?

Answer: The global ultra violet (UV) lamps market is expected to reach an estimated \$0.8 billion by 2030.

Q.2 What is the growth forecast for ultra violet (UV) lamps market?

Answer: The global ultra violet (UV) lamps market is expected to grow with a CAGR of 10.8% from 2024 to 2030.

Q.3 What are the major drivers influencing the growth of the ultra violet (UV) lamps market?

Answer: The major drivers for this market are rising number of waterborne disease related cases, increasing use of UV systems in water and wastewater treatment facilities and plants, and expanding use of these lamps to reduce indoor air pollution .

Q4. What are the major segments for ultra violet (UV) lamps market?

Answer: The future of the ultra violet (UV) lamps market looks promising with opportunities in the medical phototherapy, analytical instruments, tanning, water treatment, air purification, UV curing, surface treatment, food & beverages disinfection, and biomedical applications.

Q5. Who are the key ultra violet (UV) lamps market companies?

Answer: Some of the key ultra violet (UV) lamps companies are as follows:

SurePure

Ushio

Heraeus

Alpha-Cure

Philips

GE Lighting

LIT

eta plus electronic

Light Sources

OSRAM

Q6. Which ultra violet (UV) lamps market segment will be the largest in future?

Answer: Lucintel forecast that UV led lamp is expected to witness highest growth over the forecast period due to its energy efficiency, longer lifespan, and reduced environmental concerns.

Q7. In ultra violet (UV) lamps market, which region is expected to be the largest in next 5 years?

Answer: APAC is expected to witness highest growth over the forecast period due to growing concern towards air and water quality, continuous expansion in urbanization and industrialization, and rising disposable income among population of the region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the ultra violet (UV) lamps market by type (UV LED lamp and UV mercury lamp), application (medical phototherapy, analytical instruments, tanning, water treatment, air purification, UV curing, surface treatment, food & beverages disinfection, biomedical, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading

these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to ultra violet (UV) lamps market or related to ultra violet (UV) lamps companies, ultra violet (UV) lamps market size, ultra violet (UV) lamps market share, ultra violet (UV) lamps market growth, ultra violet (UV) lamps market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.
