### Veterinary Diagnostic Market Trends and Forecast

The future of the global veterinary diagnostic market looks promising with opportunities in the reference laboratory, veterinary hospital and clinic, point-of-care/in-house testing, and research institute and university markets. The global veterinary diagnostic market is expected to reach an estimated \$6.1 billion by 2028 with a CAGR of 10.0% from 2023 to 2028. The major drivers for this market are surge in the demand for food products derived from animals, sharp rise in the occurrence of cross-border and zoonotic illnesses within animal populations, and increase in the count of veterinary professionals in advanced economies.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown here.

### Veterinary Diagnostic Market by Segment

The study includes trends and forecast for the global veterinary diagnostic market technology, animal type, end use industry, and region as follows:

Veterinary Diagnostic Market by Technology [Shipment Analysis by Value from 2017 to 2028]:

Hematology

## Clinical Biochemistry

Immunodiagnosics

Molecular Diagnostics

Others

Veterinary Diagnostic Market by Animal Type [Shipment Analysis by Value from 2017 to 2028]:

Companion Animals

Livestock Animals

Veterinary Diagnostic Market by End Use Industry [Shipment Analysis by Value from 2017 to 2028]:

Veterinary Reference Laboratories

Veterinary Hospitals and Clinics

Point-of-Care/In-House Testing

Research Institutes and Universities

Veterinary Diagnostic Market by Region [Shipment Analysis by Value from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

## List of Veterinary Diagnostic Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, veterinary diagnostic companies cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the veterinary diagnostic companies profiled in this report include-

Antech Diagnostics

bioMérieux SA

IDEXX Laboratories

Virbac

Zoetis

Heska Corporation

Thermo Fisher Scientific

Neogen Corporation

QIAGEN

IDvet

## Veterinary Diagnostic Market Insights

Lucintel forecasts that immunodiagnostics is expected to remain largest segment over the forecast period due to its ability to diagnosis animal disease, as well as helps in tracking blood drug levels, diagnosis of endocrine, neoplastic, and infectious diseases.

Within this market, veterinary reference laboratory will remain the largest segment due to increased availability of advanced technology and facilities within veterinary laboratories, accompanied by a surge in the introduction of novel laboratory products, and a rising population of skilled experts in this domain.

North America will remain the largest region over the forecast period due to existence of healthcare initiatives within the area, growing populace of companion and livestock animals, presence of technologically sophisticated veterinary reference laboratories, and expansion in coverage of pet insurance.
