Video Intercom Device Trends and Forecast

The future of the global video intercom device market looks promising with opportunities in the automotive, commercial, government, and residential sectors. The global video intercom device market is expected to reach an estimated \$40.7 billion by 2030 with a CAGR of 8.7% from 2024 to 2030. The major drivers for this market are increasing popularity of video calling, rising use of this device in smart homes, and growing popularity for enhanced security audiovisual systems.

A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Video Intercom Device by Segment

The study includes a forecast for the global video intercom device by technology, system, access control, end use industry, and region

Video Intercom Device Market by Technology [Shipment Analysis by Value from 2018 to 2030]:

Analog Technologies

IP-Based Technologies

Video Intercom Device Market by System [Shipment Analysis by Value from 2018 to 2030]:

Wired Systems

Wireless Systems

Video Intercom Device Market by Access Control [Shipment Analysis by Value from 2018 to 2030]:

Fingerprint Readers

Password Access

Proximity Cards

Wireless Access

Video Intercom Device Market by End Use Industry [Shipment Analysis by Value from 2018 to 2030]:

Automotive

Commercial

Government

Residential

Others

Video Intercom Device Market by Region [Shipment Analysis by Value from 2018 to 2030]:

North America

Europe

Asia Pacific

The Rest of the World

List of Video Intercom Device Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies video intercom device companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the video intercom device companies profiled in this report include-

Aiphone

Alpha Communications

Comelit

Dahua Technology

Godrej

Honeywell

Legrand

Panasonic

Samsung

Siedle & Sohne

Video Intercom Device Market Insights

Lucintel forecast that IP-based system is expected to witness highest growth over the forecast period due to its various advantages, such as simple installation, low upfront costs, and little infrastructure requirements.

Residential will remain the largest segment due to substantial use of video intercom devices in residential structures for intruder prevention.

North America is expected to witness highest growth over the forecast period due to continuous expansion of residential and commercial sectors and growing number of smart buildings and transportation in this region.

Features of the Global Video Intercom Device Market

Market Size Estimates: Video intercom device market size estimation in terms of value (\$B).

Trend and Forecast Analysis: Market trends (2018 to 2023) and forecast (2024 to 2030) by various segments and regions.

Segmentation Analysis: Video intercom device market size by various segments, such as by technology, system, access control, end use industry, and region in terms of value (\$B).

Regional Analysis: Video intercom device market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different technologies, systems, access controls, end use industries, and regions for the video intercom device market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the video intercom device market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q.1 What is the video intercom device market size?

Answer: The global video intercom device market is expected to reach an estimated \$40.7 billion by 2030.

Q.2 What is the growth forecast for video intercom device market?

Answer: The global video intercom device market is expected to grow with a CAGR of 8.7% from 2024 to 2030.

Q.3 What are the major drivers influencing the growth of the video intercom device market?

Answer: The major drivers for this market are increasing popularity of video calling, rising use of this device in smart homes, and growing popularity for enhanced security audiovisual systems.

Q4. What are the major segments for video intercom device market?

Answer: The future of the video intercom device market looks promising with opportunities in the automotive, commercial, government, and residential sectors.

Q5. Who are the key video intercom device market companies?

Answer: Some of the key video intercom device companies are as follows:

Aiphone

Alpha Communications

Comelit

Dahua Technology

Godrej

Honeywell

Legrand

Panasonic

Samsung

Siedle & Sohne

Q6. Which video intercom device market segment will be the largest in future?

Answer: Lucintel forecast that IP-based system is expected to witness highest growth over the forecast period due to its various advantages, such as simple installation, low upfront costs, and little infrastructure requirements.

Q7. In video intercom device market, which region is expected to be the largest in next 5 years?

Answer: North America is expected to witness highest growth over the forecast period due to continuous expansion of residential and commercial sectors and growing number of smart buildings and transportation in this region.

Q.8 Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% customization without any additional cost.

This report answers following 11 key questions:

Q.1. What are some of the most promising, high-growth opportunities for the video intercom device market by technology (analog technologies and IP-based technologies), system (wired systems and wireless systems), access control (fingerprint readers, password access, proximity cards, and wireless access), end use industry (automotive, commercial, government, residential, and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

Q.3. Which region will grow at a faster pace and why?

Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?

Q.5. What are the business risks and competitive threats in this market?

Q.6. What are the emerging trends in this market and the reasons behind them?

Q.7. What are some of the changing demands of customers in the market?

Q.8. What are the new developments in the market? Which companies are leading these developments?

Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?

Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?

Q.11. What M&A activity has occurred in the last 5 years and what has its impact been on the industry?

For any questions related to video intercom device market or related to video intercom device companies, video intercom device market size, video intercom device market share, video intercom device market growth, video intercom device market research, write Lucintel analyst at email: helpdesk@lucintel.com we will be glad to get back to you soon.
