The future of the global virus filtration market looks promising with opportunities in biological, medical device, air purification, and water purification applications. The global virus filtration market is expected to grow with a CAGR of 11%-13% from 2020 to 2025. The major drivers for this market are rising prevalence of chronic diseases, such as cancer and diabetes, increasing research and development expenditure, and rising government support for the pharmaceutical and biotechnology industry.

A total of XX figures / charts and XX tables are provided in this more than 150-page report to help in your business decisions. Sample figures with some insights are shown below. To learn the scope, benefits, companies researched, and other details of the global virus filtration market report, please download the report brochure.

In this market, kits and reagents is the largest product type of virus filtration, whereas pharmaceutical and biotechnology companies is the largest end user. Growth in various segments of the virus filtration market are given below:

The study includes trends and forecast for the global virus filtration market by product, application, end user, and region as follows:

By Product [Value (\$ Million) shipment analysis for 2014 – 2025]:

Kits & Reagents

Filtration Systems

Services

Other Products

By Application [Value (\$ Million) shipment analysis for 2014 – 2025]:

Biological

Vaccine & Therapeutics

Blood and Blood Products

Cellular and Gene Therapy Products

Tissue and Tissue Products

Stem Cell Products

Medical Devices

Air Purification

Water Purification

By End User [Value (\$ Million) shipment analysis for 2014 – 2025]:

Pharmaceutical & Biotechnology Companies

Contract Research Organizations

Academic Research Institutes

Medical Device Companies

By Region [Value (\$ Million) shipment analysis for 2014 – 2025]:

North America

United States

Canada

Mexico

Europe

United Kingdom

Germany

France

Asia Pacific

China

India

Japan

The Rest of the World

Brazil

Some of the virus filtration companies profiled in this report include Merck, General Electric, Thermo Fisher Scientific, Lonza, Pall, Charles River Laboratories, Sigma-Aldrich, Sartorius, Asahi Kasei Medical, and WuXi PharmaTech.

Lucintel forecasts that kits & reagents will remain the largest product segment over the forecast period due to increasing focus on development of vaccines, protein therapeutics, and blood products.

Within this market, pharmaceutical & biotechnology companies will remain the largest segment by end user over the forecast period due to rising research and development

activities and increasing production of biologics.

North America will remain the largest region over the forecast period due to increasing prevalence of chronic diseases, rising research and development activities in biopharmaceutical industries, and growing demand for biologics in the region.

Features of the Global Virus Filtration Market

Market Size Estimates: Global virus filtration market size estimation in terms of value (\$M) shipment.

Trend and Forecast Analysis: Market trends (2014-2019) and forecast (2020-2025) by various segments.

Segmentation Analysis: Global virus filtration market size by various segments, such as product, application, and end user in terms of value.

Regional Analysis: Global virus filtration market breakdown by North America, Europe, Asia Pacific, and Rest of the World.

Growth Opportunities: Analysis of growth opportunities in different product, application, end user, and region for the global virus filtration market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape of the global virus filtration market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

This report answers following key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the global virus filtration market by product (kits & reagents, filtration systems, services, and other products), application (biological (vaccine & therapeutics, blood and blood products, cellular and gene therapy products, tissue and tissue products, and stem cell products), medical devices, air purification, and water purification), end user (pharmaceutical & biotechnology companies, contract research organizations, academic research institutes, and medical device companies), and region (North America,

Europe, Asia Pacific, and Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which region will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the global virus filtration market?

Q.5 What are the business risks and threats to the global virus filtration market?

Q.6 What are the emerging trends in this virus filtration market and the reasons behind them?

Q.7 What are some changing demands of customers in this virus filtration market?

Q.8 What are the new developments in this virus filtration market? Which companies are leading these developments?

Q.9 Who are the major players in this virus filtration market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in this virus filtration market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the global virus filtration market?

Report Scope

Key Features Description

Base Year for Estimation 2019

Trend Period

(Actual Estimates) 2014-2019

Forecast Period 2020-2025

Pages More than 150

Market Representation / Units Revenue in US \$ Million

Report Coverage Market Trends & Forecasts, Competitor Analysis, New Product Development, Company Expansion, Merger, Acquisitions & Joint Venture, and Company Profiling

Market Segments Product (Kits & Reagents, Filtration Systems, Services, and Other Products), Application (Biological, Medical Devices, Air Purification, and Water Purification), and End User (Pharmaceutical & Biotechnology Companies, Contract Research Organizations, Academic Research Institutes, and Medical Device Companies)

Regional Scope North America (USA, Mexico, and Canada), Europe (United Kingdom, Germany, and France), Asia (China, India, and Japan), and ROW (Brazil)

Contents

1. EXECUTIVE SUMMARY

2. MARKET BACKGROUND AND CLASSIFICATIONS

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2014 T 2025

3.1: Macroeconomic Trends and Forecast

3.2: Global Virus Filtration Market Trends and Forecast

3.3: Global Virus Filtration Market by Product

3.3.1: Kits & Reagents

3.3.2: Filtration Systems

3.3.3: Services

3.3.4: Other Products

3.4: Global Virus Filtration Market by Application

3.4.1: Biological

3.4.1.1: Vaccine & Therapeutics

3.4.1.2: Blood and Blood Products

3.4.1.3: Cellular and Gene Therapy Products

3.4.1.4: Tissue and Tissue Products

3.4.1.5: Stem Cell Products

3.4.2: Medical Devices

3.4.3: Air Purification

3.4.4: Water Purification

3.5: Global Virus Filtration Market by End User

3.5.1: Pharmaceutical & Biotechnology Companies

3.5.2: Contract Research Organizations

3.5.3: Academic Research Institutes

3.5.4: Medical Device Companies

4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION

4.1: Global Virus Filtration Market by Region

4.2: North American Virus Filtration Market

4.2.1: Market by Product: Kits & Reagents, Filtration Systems, Services, and Other Products

4.2.2: Market by Application: Biological (Vaccine & Therapeutics, Blood and Blood Products, Cellular and Gene Therapy Products, Tissue and Tissue Products, and Stem Cell Products), Medical Devices, Air Purification, and Water Purification

4.2.3: Market by End User: Pharmaceutical & Biotechnology Companies, Contract Research Organizations, Academic Research Institutes, and Medical Device Companies

4.2.4: The United States Virus Filtration Market

4.2.5: The Canadian Virus Filtration Market

4.2.6: The Mexican Virus Filtration Market

4.3: European Virus Filtration Market

4.3.1: Market by Product: Kits & Reagents, Filtration Systems, Services, and Other Products

4.3.2: Market by Application: Biological (Vaccine & Therapeutics, Blood and Blood Products, Cellular and Gene Therapy Products, Tissue and Tissue Products, and Stem Cell Products), Medical Devices, Air Purification, and Water Purification

4.3.3: Market by End User: Pharmaceutical & Biotechnology Companies, Contract Research Organizations, Academic Research Institutes, and Medical Device Companies

4.3.4: The Virus Filtration Market of United Kingdom

4.3.5: The German Virus Filtration Market

4.3.6: The French Virus Filtration Market

4.4: APAC Virus Filtration Market

4.4.1: Market by Product: Kits & Reagents, Filtration Systems, Services, and Other Products

4.4.2: Market by Application: Biological (Vaccine & Therapeutics, Blood and Blood Products, Cellular and Gene Therapy Products, Tissue and Tissue Products, and Stem Cell Products), Medical Devices, Air Purification, and Water Purification

4.4.3: Market by End User: Pharmaceutical & Biotechnology Companies, Contract Research Organizations, Academic Research Institutes, and Medical Device Companies

4.4.4: The Chinese Virus Filtration Market

4.4.5: The Indian Virus Filtration Market

4.4.6: The Japanese Virus Filtration Market

4.5: ROW Virus Filtration Market

4.5.1: Market by Product: Kits & Reagents, Filtration Systems, Services, and Other Products

4.5.2: Market by Application: Biological (Vaccine & Therapeutics, Blood and Blood

Products, Cellular and Gene Therapy Products, Tissue and Tissue Products, and Stem Cell Products), Medical Devices, Air Purification, and Water Purification

4.5.3: Market by End User: Pharmaceutical & Biotechnology Companies, Contract Research Organizations, Academic Research Institutes, and Medical Device Companies

4.5.4: Brazilian Virus Filtration Market

5. COMPETITOR ANALYSIS

5.1: Market Share Analysis

5.2: Product Portfolio Analysis

5.3: Operational Integration

5.4: Geographical Reach

5.5: Porter's Five Forces Analysis

6. COST STRUCTURE ANALYSIS

6.1: Cost of Goods Sold

6.2: SG&A

6.3: EBITDA Margin

7. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS

7.1: Growth Opportunity Analysis

7.1.1: Growth Opportunities for the Global Virus Filtration Market by Product

7.1.2: Growth Opportunities for the Global Virus Filtration Market by Application

7.1.3: Growth Opportunities for the Global Virus Filtration Market by End User

7.1.4: Growth Opportunities for the Global Virus Filtration Market by Region

7.2: Emerging Trends in the Global Virus Filtration Market

7.3: Strategic Analysis

7.3.1: New Product Development

7.3.2: Capacity Expansion of the Global Virus Filtration Market

7.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Virus Filtration Market

7.3.4: Certification and Licensing

8. COMPANY PROFILES OF LEADING PLAYERS

8.1: Merck & Co., Inc.

8.2: General Electric Company

- 8.3: Therm Fisher Scientific Inc.
- 8.4: Lonza Group Ltd.
- 8.5: Pall Corporation
- 8.6: Charles River Laboratories International, Inc.
- 8.7: Sigma-Aldrich Corporation
- 8.8: Sartorius AG
- 8.9: Asahi Kasei Medical Co., Ltd.
- 8.10: WuXi PharmaTech (Cayman) Inc.
