Wheelchair Market Introduction

The global wheelchair market has been experiencing significant growth in recent years, driven by factors such as the rising aging population, increasing prevalence of disabilities, and advancements in wheelchair technology. This market report provides a comprehensive analysis of the wheelchair industry, including market trends, market share, key players, and future growth prospects.

Wheelchair Market Overview

The future of the global wheelchair market looks promising with opportunities in homecare and health institutions. The global wheelchair market is expected to reach an estimated \$8.3 billion by 2030 with a CAGR of 6.3% from 2024 to 2030. The major drivers for this market are growing elderly population, rising spinal cord injuries, and increasing obesity rate.

Wheelchairs are essential mobility devices that enable individuals with disabilities or limited mobility to move independently. These devices offer improved mobility, comfort, and accessibility for people with various disabilities, including spinal cord injuries, musculoskeletal disorders, and mobility impairments caused by aging. The wheelchair market has witnessed substantial growth due to factors such as an increase in chronic diseases, government initiatives to enhance accessibility, and the growing demand for customized wheelchairs.

A total of 73 figures / charts and 52 tables are provided in this 202-page report to help in your business decisions. Sample figures with some insights are shown below.

Emerging Trends in the Wheelchair Market

The future outlook for the wheelchair market is optimistic, with several growth opportunities on the horizon. Technological advancements will continue to play a crucial role in shaping the market. The development of advanced materials, smart sensors, and connectivity features will enhance the performance and functionality of wheelchairs, improving user experience and facilitating independent mobility.

Furthermore, there is a growing emphasis on personalized and customized wheelchair solutions. Manufacturers are focusing on offering wheelchairs that meet individual user requirements, including size, comfort, and specific mobility needs. This customization trend is expected to gain momentum in the coming years, providing opportunities for market expansion.

Emerging trends, which have a direct impact on the dynamics of the industry, include increase adoption of power assistance device and development of hybrid concept wheelchair.

Wheelchair Market by Segments

The market report highlights the importance of accessible infrastructure and government initiatives. Governments worldwide are implementing policies and regulations to improve accessibility and inclusivity for individuals with disabilities. This includes ensuring wheelchair-friendly public spaces, transportation, and buildings. These initiatives are expected to drive the demand for wheelchairs and create a conducive market environment. In this market, cardiovascular device is the largest application market, whereas surgical is largest market by function type. Growth in various segments of the Wheelchair market are given below: The study includes a trend and forecast for the wheelchair market by wheelchair type, category, design & function, end use, and region as follows:

Wheelchair Market by Wheel Chair Type [Value (\$B) and Volume (Thousand Units) from 2018 to 2030]:

Manual Wheelchair

Power Wheelchair

- o Front Wheel Drive
- o Central Wheel Drive
- o Rear Wheel Drive
- o Standing Electric Wheelchair
- o Others

Wheelchair Market by Category [Value (\$ Billion) from 2018 to 2030]:

Adult Wheelchair

Pediatric Wheelchair

Wheelchair Market by Design and Function [Value (\$ Billion) from 2018 to 2030]:

Basic Wheelchair

Sports Wheelchair

Bariatric Wheelchair

Standing Wheelchair

Others

Wheelchair Market by End Use [Value (\$B) from 2018 to 2030]:

Homecare

Healthcare Institution and Others

Wheelchair Market by Region [Value (\$ Billion) from 2018 to 2030 and Volume (Thousand Units)]:

North America

- o US

- o Mexico

- o Canada

Europe

- o United Kingdom

- o Germany

- o France

- o Italy

APAC

- o China

- o Japan

- o India

ROW

Wheelchair Market Share

The global wheelchair market is witnessing significant growth, driven by the increasing aging population, rising prevalence of disabilities, and advancements in wheelchair

technology. Key players in the industry are investing in research and development to introduce innovative products and gain a competitive edge. The future of the market looks promising, with continued technological advancements and a focus on customized solutions. Overall, the wheelchair market is poised for expansion in the coming years, improving mobility and independence for individuals with disabilities.

The wheelchair market is expected to witness continued growth in the coming years. One of the primary drivers of market growth is the increasing aging population worldwide. With a larger proportion of elderly individuals, the incidence of mobility-related disabilities rises, leading to a higher demand for wheelchairs. Moreover, the growing prevalence of chronic diseases, such as multiple sclerosis, spinal cord injuries, and cerebral palsy, further contributes to the market's expansion.

Wheelchair Manufacturers

The global wheelchair market is highly competitive, with several key players striving for market share. Some of the leading companies in this market include Invacare Corporation, Sunrise Medical, Permobil AB, Ottobock SE & Co. KGaA, and Pride Mobility Products Corporation. These players invest in research and development to introduce technologically advanced wheelchairs and engage in strategic collaborations to expand their market presence.

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies wheelchair companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the wheelchair companies profiled in this report includes.

Invacare

Pride Mobility Products

Sunrise Medical

Ottobock

Permobil

Drive Medical

LEVO

21st Century Scientific

Wheelchair Market Insights

Lucintel forecasts that the power wheelchair is expected to witness the highest growth during the forecast period due to increasing demand for multi-functionality wheelchair, such as tilt in, reclining, and standing wheelchair.

Within this market, basic, sports, bariatric, and standing wheelchairs are used in various applications. Basic wheelchair will remain the largest segment due to easy availability and low cost.

North America will remain the largest region due to an increasing obesity rate and growing elderly population. Asia Pacific is expected to witness the highest growth rate over the forecast period due to increasing government healthcare expenditure, rising disabled population, and increasing in development of medical facilities.

Features of the Wheelchair Market

Market Size Estimates: Wheelchair market size estimation in terms of value (\$M).

Trend and Forecast Analysis: Market trends (2018-2023) and forecast (2024-2030) by various segments and regions.

Segmentation Analysis: Wheelchair market size by various segments, such as wheelchair type, category, design & function, and end use.

Regional Analysis: Wheelchair market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different application, function, end use, and regions for wheelchair market.

Strategic Analysis: This includes M&A and competitive landscape for the wheelchair.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

Frequently Asked Questions (FAQ)

Q1. How big is the wheelchair market?

Answer: The global wheelchair market is expected to reach an estimated \$8.3 billion by 2030.

Q2. What is the wheelchair market growth?

Answer: The wheelchair market is expected to grow at a CAGR of 6.3% from 2024 to 2030.

Q3. What are the major drivers influencing the growth of the wheelchair market?

Answer: The major drivers for this market are growing elderly population, rising spinal cord injuries, and increasing obesity rate.

Q4. What are the major applications or end use industries for wheelchair?

Answer: Homecare, healthcare institutions and other are the major end use for wheelchair

Q5. What are the emerging trends in wheelchair market?

Answer: Emerging trends, which have a direct impact on the dynamics of the industry, include increase adoption of power assistance device and development of hybrid concept wheelchair.

Q6. Who are the key wheelchair companies?

Answer: Some of the key wheelchair companies are as follows:

Invacare

Pride Mobility Products

Sunrise Medical

Ottobock

Permobil

Drive Medical

LEVO

21st Century Scientific

Q7.Which wheelchair product segment will be the largest in future?

Answer: Lucintel forecasts that the power wheelchair is expected to witness the highest growth during the forecast period due to increasing demand for multi-functionality wheelchair, such as tilt in, reclining, and standing wheelchair

Q8. In wheelchair market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region and Asia Pacific expected to witness the highest growth over next 5 years

Q9. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1 What are some of the most promising potential, high-growth opportunities for the Wheelchair market by product (manual and power wheelchair), category (adult and

pediatric wheelchair), function (basic, sports, bariatric, standing wheelchair, and others), end use (homecare and healthcare institution and others), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2 Which segments will grow at a faster pace and why?

Q.3 Which regions will grow at a faster pace and why?

Q.4 What are the key factors affecting market dynamics? What are the drivers and challenges of the wheelchair market?

Q.5 What are the business risks and threats to the wheelchair market?

Q.6 What are emerging trends in this wheelchair market and the reasons behind them?

Q.7 What are some changing demands of customers in the wheelchair market?

Q.8 What are the new developments in the wheelchair market? Which companies are leading these developments?

Q.9 Who are the major players in the wheelchair market? What strategic initiatives are being implemented by key players for business growth?

Q.10 What are some of the competitive products and processes in the wheelchair market, and how big of a threat do they pose for loss of market share via material or product substitution?

Q.11 What M&A activities did take place in the last five years in the wheelchair market?
