### Zero Energy House/Building Market Trends and Forecast

The future of the global zero energy house/building market looks promising with opportunities in the residential and non-residential markets. The global zero energy house/building market is expected to reach an estimated \$248.3 billion by 2028 with a CAGR of 20.1% from 2023 to 2028. The major drivers for this market are increasing demand for sustainable energy and growing on towards global warming and protection of earth's environment among the masses.

A more than 150-page report is developed to help in your business decisions. A sample figure with some insights is shown below.

### Zero Energy House/Building Market by Segment

The study includes trends and forecast for the global zero energy house/building market by component, solution, application, and region, as follows:

Zero Energy House/Building Market by Component [Value (\$B) Shipment Analysis from 2017 to 2028]:

Lighting

HVAC System

## Others

Zero Energy House/Building Market by Solution [Value (\$B) Shipment Analysis from 2017 to 2028]:

Systems

Building Components

Zero Energy House/Building Market by Application [Value (\$B) Shipment Analysis from 2017 to 2028]:

Residential

Non-Residential

o Building Type

? Commercial

? Institutional

Zero Energy House/Building Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Zero Energy House/Building Market Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies, zero energy house/building companies in the global automotive market cater to increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the zero energy house/building companies in the global market profiled in this report include-

Altura Associates

Canadian Solar

Daikin Industries

GreenTree Global

Honeywell International

Integrated Environmental Solutions

Johnsons Control

Kingspan Group

Mitsubishi Electric Corporation

NEO LLC

Schneider Electric

Siemens

Trane Technologies

Zero Energy House/Building Market Insights

Lucintel forecasts that HVAC system will remain the largest segment over the

forecast period because it ensures a healthy interior environment by controlling airflow, temperature, and humidity.

Within this market, non-residential is expected to remain the largest segment due to increasing awareness and growing investments to improve energy efficiency and renewable energy sources among owners of non-residential.

North America will remain the largest region during the forecast period due to increasing investment in developing zero energy building solutions and stringent energy efficiency standards in countries like US and Canada.

## Features of the Zero Energy House/Building Market

**Market Size Estimates:** Zero energy house/building market size estimation in terms of value (\$B)

**Trend and Forecast Analysis:** Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

**Segmentation Analysis:** Zero energy house/building market size by various segments, such as by component, solution, application, and region

**Regional Analysis:** Zero energy house/building market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

**Growth Opportunities:** Analysis on growth opportunities in different by component, solution, application, and regions for the zero energy house/building market.

**Strategic Analysis:** This includes M&A, new product development, and competitive landscape for the zero energy house/building market.

**Analysis of competitive intensity of the industry based on Porter's Five Forces model.**

## FAQ

Q1. What is the zero energy house/building market size?

Answer: The global zero energy house/building market is expected to reach an estimated \$248.3 billion by 2028.

Q2. What is the growth forecast for zero energy house/building market?

Answer: The global zero energy house/building market is expected to grow with a CAGR of 20.1% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the zero energy house/building market?

Answer: The major drivers for this market are increasing demand for sustainable energy and growing awareness towards global warming and protection of earth's environment among the masses.

Q4. What are the major segments for zero energy house/building market?

Answer: The future of the global zero energy house/building market looks promising with opportunities in the residential and non-residential market.

Q5. Who are the key zero energy house/building companies?

Answer: Some of the key zero energy house/building companies are as follows:

Altura Associates

Canadian Solar

Daikin Industries

GreenTree Global

Honeywell International

Integrated Environmental Solutions

Johnsons Control

Kingspan Group

Mitsubishi Electric Corporation

NEO LLC

Schneider Electric

Siemens AG

Trane Technologies

Q6. Which zero energy house/building segments will be the largest in future?

Answer: Lucintel forecasts that HVAC system will remain the largest segment over the forecast period because it ensures a healthy interior environment by controlling airflow, temperature, and humidity.

Q7. In zero energy house/building market, which region is expected to be the largest in next 5 years?

Answer: North America will remain the largest region during the forecast period due to increasing investment in developing zero energy building solutions and stringent energy efficiency standards in countries like US and Canada.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the zero energy house/building market by component (lighting, HVAC system, and others), solution (systems and building components), application (residential and non-residential [building type (commercial and institutional)]), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
- Q.7. What are some of the changing demands of customers in the market?
- Q.8. What are the new developments in the market? Which companies are leading these developments?
- Q.9. Who are the major players in this market? What strategic initiatives are key players pursuing for business growth?
- Q.10. What are some of the competing products in this market and how big of a threat do they pose for loss of market share by material or product substitution?
- Q.11. What M&A activity did occur in the last five years and how did they impact the industry?

For any questions related to zero energy house/building market or related to zero energy house/building companies, zero energy house/building market size, zero energy house/building market share, zero energy house/building analysis, zero energy house/building market growth, zero energy house/building market research, write Lucintel analyst at email: [helpdesk@lucintel.com](mailto:helpdesk@lucintel.com) we will be glad to get back to you soon.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. GLOBAL ZERO ENERGY HOUSE/BUILDING MARKET: MARKET DYNAMICS**

2.1: Introduction, Background, and Classifications

2.2: Supply Chain

2.3: Industry Drivers and Challenges

### **3. MARKET TRENDS AND FORECAST ANALYSIS FROM 2017 TO 2028**

3.1: Macroeconomic Trends (2017-2022) and Forecast (2023-2028)

3.2: Global Zero Energy House/Building Market Trends (2017-2022) and Forecast (2023-2028)

3.3: Global Zero Energy House/Building Market by Component

3.3.1: Lighting

3.3.2: HVAC System

3.3.3: Others

3.4: Global Zero Energy House/Building Market by Solution

3.4.1: Systems

3.4.2: Building Components

3.5: Global Zero Energy House/Building Market by Application

3.5.1: Residential

3.5.2: Non-Residential

3.5.2.1: Building Type

3.5.2.1.1: Commercial

3.5.2.1.2: Institutional

### **4. MARKET TRENDS AND FORECAST ANALYSIS BY REGION FROM 2017 TO 2028**

4.1: Zero Energy House/Building Market by Region

4.2: North American Zero Energy House/Building Market

4.2.1: North American Zero Energy House/Building Market by Component: Lighting, HVAC System, and Others

4.2.2: North American Zero Energy House/Building Market by Application: Residential and Non-Residential

4.3: European Zero Energy House/Building Market

4.3.1: European Zero Energy House/Building Market by Component: Lighting, HVAC System, and Others

4.3.2: European Zero Energy House/Building Market by Application: Residential and Non-Residential

4.4: APAC Zero Energy House/Building Market

4.4.1: APAC Zero Energy House/Building Market by Component: Lighting, HVAC System, and Others

4.4.2: APAC Zero Energy House/Building Market by Application: Residential and Non-Residential

4.5: ROW Zero Energy House/Building Market

4.5.1: ROW Zero Energy House/Building Market by Component: Lighting, HVAC System, and Others

4.5.2: ROW Zero Energy House/Building Market by Application: Residential and Non-Residential

## **5. COMPETITOR ANALYSIS**

5.1: Product Portfolio Analysis

5.2: Operational Integration

5.3: Porter's Five Forces Analysis

## **6. GROWTH OPPORTUNITIES AND STRATEGIC ANALYSIS**

6.1: Growth Opportunity Analysis

6.1.1: Growth Opportunities for the Global Zero Energy House/Building Market by Component

6.1.2: Growth Opportunities for the Global Zero Energy House/Building Market by Solution

6.1.3: Growth Opportunities for the Global Zero Energy House/Building Market by Application

6.1.4: Growth Opportunities for the Global Zero Energy House/Building Market by Region

6.2: Emerging Trends in the Global Zero Energy House/Building Market

6.3: Strategic Analysis

6.3.1: New Product Development

6.3.2: Capacity Expansion of the Global Zero Energy House/Building Market

6.3.3: Mergers, Acquisitions, and Joint Ventures in the Global Zero Energy House/Building Market

6.3.4: Certification and Licensing

## **7. COMPANY PROFILES OF LEADING PLAYERS**

- 7.1: Altura Associates
- 7.2: Canadian Solar
- 7.3: Daikin Industries
- 7.4: GreenTree Global
- 7.5: Honeywell International
- 7.6: Integrated Environmental Solutions
- 7.7: Johnsons Control
- 7.8: Kingspan Group
- 7.9: Mitsubishi Electric Corporation
- 7.10: NEO LLC
- 7.11: Schneider Electric
- 7.12: Siemens AG
- 7.13: Trane Technologies
