A more than 150-page report is developed to help in your business decisions. Sample figures with some insights are shown below.

Zootechnical Feed Additive Market by Segment

The study includes a forecast for the global zootechnical feed additive market by ingredient type, end use industry, and region, as follows:

Zootechnical Feed Additive Market by Ingredient Type [Value (\$B) Shipment Analysis from 2017 to 2028]:

Prebiotics

Probiotics

Phytogenic

Protein-Based

Zootechnical Feed Additive Market by End Use Industry [Value (\$B) Shipment Analysis from 2017 to 2028]:

Livestock Industry

Poultry

Pet Industry

Zootechnical Feed Additive Market by Region [Value (\$B) Shipment Analysis from 2017 to 2028]:

North America

Europe

Asia Pacific

The Rest of the World

List of Zootechnical Feed Additive Companies

Companies in the market compete on the basis of product quality offered. Major players in this market focus on expanding their manufacturing facilities, R&D investments, infrastructural development, and leverage integration opportunities across the value chain. With these strategies zootechnical feed additive companies cater increasing demand, ensure competitive effectiveness, develop innovative products & technologies, reduce production costs, and expand their customer base. Some of the zootechnical feed additive companies profiled in this report include.

Delacon

Novus International

Phytobiotics

Alltech

ADM

Nutreco

Evonic

Zootechnical Feed Additive Market Insights

Lucintel forecast that protein-based will remain the largest segment over the forecast period due to increasing demand for protein-rich animal-based products and rising awareness about usage and benefits of feed additive among livestock farmers.

Livestock industry is expected to record the highest growth due to growing livestock population and increasing demand for animal based products.

European region is expected to witness the highest growth during the forecast period due to growing demand for high quality animal products and increasing stringent regulations regarding animal health.

Features of the Zootechnical Feed Additive Market

Market Size Estimates: Zootechnical feed additive market size estimation in terms of value (\$B)

Trend And Forecast Analysis: Market trends (2017-2022) and forecast (2023-2028) by various segments and regions.

Segmentation Analysis: Zootechnical feed additive market size by various segments, such as by ingredient type, end use industry, and region

Regional Analysis: Zootechnical feed additive market breakdown by North America, Europe, Asia Pacific, and the Rest of the World.

Growth Opportunities: Analysis on growth opportunities in different by ingredient type, end use industry, and regions for the zootechnical feed additive market.

Strategic Analysis: This includes M&A, new product development, and competitive landscape for the zootechnical feed additive market.

Analysis of competitive intensity of the industry based on Porter's Five Forces model.

FAQ

Q1. What is the zootechnical feed additive market size?

Answer: The global zootechnical feed additive market is expected to reach an estimated \$9.5 billion by 2028.

Q2. What is the growth forecast for zootechnical feed additive market?

Answer: The global zootechnical feed additive market is expected to grow with a CAGR of 6.5% from 2023 to 2028.

Q3. What are the major drivers influencing the growth of the zootechnical feed additive market?

Answer: The major drivers for this market are increasing demand for animal protein as it helps in enhancing production of more meat, egg, and dairy products.

Q4. What are the major segments for zootechnical feed additive market?

Answer: The future of the zootechnical feed additive market looks promising with opportunities in the livestock, poultry, and pet industries.

Q5. Who are the key zootechnical feed additive companies?

Answer: Some of the key zootechnical feed additive companies are as follows:

Delacon

Novus International

Phytobiotics

Alltech

ADM

Nutreco

Evonic

Q6. Which zootechnical feed additive segment will be the largest in future?

Answer: Lucintel forecast that protein-based will remain the largest segment over the forecast period due to increasing demand for protein-rich animal-based products and rising awareness about usage and benefits of feed additive among livestock farmers.

Q7. In zootechnical feed additive market, which region is expected to be the largest in next 5 years?

Answer: European region is expected to witness the highest growth during the forecast period due to growing demand for high quality animal products and increasing stringent regulations regarding animal health.

Q8. Do we receive customization in this report?

Answer: Yes, Lucintel provides 10% Customization Without any Additional Cost.

This report answers following 11 key questions

Q.1. What are some of the most promising, high-growth opportunities for the zootechnical feed additive market by ingredient type (prebiotics, probiotics, phytogenic, and protein-based), end use industry (livestock industry, poultry, and pet industry), and region (North America, Europe, Asia Pacific, and the Rest of the World)?

Q.2. Which segments will grow at a faster pace and why?

- Q.3. Which region will grow at a faster pace and why?
- Q.4. What are the key factors affecting market dynamics? What are the key challenges and business risks in this market?
- Q.5. What are the business risks and competitive threats in this market?
- Q.6. What are the emerging trends in this market and the reasons behind them?
