Abstracts

3PL Services is a business processes through which business organizations outsource their logistics and distribution functions to a service provider, which specializes in handling logistics functions such as warehousing, freight and forwarding, and transportation. Often 3PL providers try to go beyond the logistics functions and provide value-added services such as cross-docking, door-to-door delivery, inventory management, and the packaging of products.

This report elaborates the market size, market characteristics, and market growth of the 3PL Services industry, and breaks down according to the type, application, and consumption area of 3PL Services. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for 3PL Services in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
