## **Abstracts**

Reinsurance is insurance that is purchased by an insurance company. In the classic case, reinsurance allows insurance companies to remain solvent after major claims events, such as major disasters like hurricanes and wildfires. Agriculture is a growth area. As a growing global population and changing diets fuel demand for higher crop output, we protect the capital needed to increase production. Agriculture reinsurance covers the production and financial risks of farmers and related shortfall risks of interconnected stakeholders.

This report elaborates the market size, market characteristics, and market growth of the Agriculture Insurance and Reinsurance industry, and breaks down according to the type, application, and consumption area of Agriculture Insurance and Reinsurance. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Agriculture Insurance and Reinsurance in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
