Abstracts

An annuity is a long term investment that is issued by an insurance company designed to help protect customer from the risk of outliving customers' income. Through annuitization, customers' purchase payments (what customer contribute) are converted into periodic payments that can last for life.

This report elaborates the market size, market characteristics, and market growth of the Annuities Insurance industry, and breaks down according to the type, application, and consumption area of Annuities Insurance. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Annuities Insurance in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
