Abstracts

Aging is a natural process. Anti-aging refers to some processes that inhibit and delay the aging of the body, promote overall health, and keep the body in good intelligence and strength within the lifespan determined by genetic factors. And aging is a necessary stage of life, no matter how much you don't like it. As the years go by, the skin will have various problems such as wrinkles, sagging, pigmentation, dullness and so on. Anti-aging is to help reduce the production of free radicals by supplementing antioxidants, increase skin elasticity, and supplement collagen or enzymes. Anti-aging therapeutics and anti-aging skin care products can effectively delay aging.

This report elaborates the market size, market characteristics, and market growth of the Anti-Aging Products and Therapies industry, and breaks down according to the type, application, and consumption area of Anti-Aging Products and Therapies. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.
