Asthma, an inflammatory disease of the lungs is characterized by difficulty while breathing. The symptoms can be triggered by exposure to various types of allergens such as pollen, ragweed, animal dander, and irritants such as smoke and chemical fumes. Common symptoms of asthma are coughing, wheezing, tightness in the chest, and shortness of breath. It leads to swelling or inflammation of inside walls of an asthmatic's airways. This makes the airways extremely sensitive to irritations and increases the susceptibility to an allergic reaction. Asthma is found to be common among children that result in loss of their productivity.
