Abstracts

The beret is an innocent soft standard military cap that is often used as a symbol of the personnel of the national army's rangers, special forces and airborne units. The beret has the advantages of easy folding, no fear of squeezing, easy carrying, and beautiful appearance, and it is also convenient for the jacket steel helmet.

This report elaborates the market size, market characteristics, and market growth of the Berets industry, and breaks down according to the type, application, and consumption area of Berets. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Berets in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
