Abstracts

Billiards is an elegant indoor sports that is popular in the world. It is an indoor entertainment sport that uses the club to hit the ball on the stage and counts the scores to determine the outcome of the game. The current billiards are made of synthetic resin, mainly polyester, unsaturated polyester, phenolic resin, urea-formaldehyde resin and other varieties. The price and grade of different materials are very different.

This report elaborates the market size, market characteristics, and market growth of the Billiards industry, and breaks down according to the type, application, and consumption area of Billiards. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Billiards in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
