## **Abstracts**

Building management is a discipline that comes under the umbrella of facility management. A building manager supervises the hard and soft services of a built structure. There are essentially two types of building manager positions: residential and commercial. Hard services usually relate to physical, structural services such as fire alarm systems, lifts and so on whereas soft services allude to cleaning, landscaping, security and suchlike human-sourced services.

This report elaborates the market size, market characteristics, and market growth of the Building Management industry, and breaks down according to the type, application, and consumption area of Building Management. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Building Management in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
