Abstracts

Burial insurance usually refers to a life insurance policy with a death insurance amount ranging from \$5,000 to \$25,000. As their nickname suggests, people buy such policies and provide funeral and burial fees for themselves and/or family members. After answering some health-related questions about the application and not having a medical examination, you can purchase a policy.

This report elaborates the market size, market characteristics, and market growth of the Burial Insurance industry, and breaks down according to the type, application, and consumption area of Burial Insurance. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Burial Insurance in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
