Abstracts

Car Decal is a kind of special paper, which is divided into engraving type and printing type. Among them, the engraving reflective material is the best, non-stick paint, and the price is also the highest! Printed stickers are easy to stick to paint, easy to fall off, and the price is much lower. Car stickers are gradually becoming the easiest way to modify. People gradually use their own personalized words and patterns to show themselves and add a touch of warmth to the cold car, making it increasingly a fashion trend like clothing.

This report elaborates the market size, market characteristics, and market growth of the Car Decal industry, and breaks down according to the type, application, and consumption area of Car Decal. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Car Decal in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
