## Abstracts

Children's Footwear is specially footwear designed for children. The most important thing for children's footwear is to protect your baby's soft feet and help your baby grow healthily. Children's footwear are designed to protect toes with a circular arc design; the bottom is light and thin, and the anti-slip is enhanced to enhance the grip of the soles. This report elaborates the market size, market characteristics, and market growth of the Children's Footwear industry, and breaks down according to the type, application, and consumption area of Children's Footwear. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Children's Footwear in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
