Abstracts

Cyber insurance is an insurance product that protects corporate and individual users from Internet-based risks, and more generally from risks associated with information technology infrastructure and activities. Risks of this nature are often excluded from traditional commercial general liability policies, or at least not explicitly defined in traditional insurance products.

This report elaborates the market size, market characteristics, and market growth of the Cyber ??Insurance industry, and breaks down according to the type, application, and consumption area of Cyber ??Insurance. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Cyber ??Insurance in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
