## **Abstracts**

Daily fantasy sports (DFS) are a subset of fantasy sport games. As with traditional fantasy sports games, players compete against others by building a team of professional athletes from a particular league or competition while remaining under a salary cap, and earn points based on the actual statistical performance of the players in real-world competitions. Skin gambling is the use of virtual goods. A loot box is a consumable virtual item which can be redeemed to receive a randomized selection of further virtual items, ranging from simple customization options for a player's avatar or character, to game-changing equipment such as weapons and armor.
