Abstracts

The digital insurance platform is designed and developed to ensure that people are prepared for the challenges of emerging and disruptive technologies that are rapidly entering the insurance industry. It provides an end-to-end digital integration solution that enhances traditional sales and service channels while enhancing network capabilities and adding new mobile opportunities. Digital insurance platforms enable insurers, MGAs and retail agents to improve and strengthen existing relationships and generate new relationships while increasing process efficiency to increase growth and profitability.

This report elaborates the market size, market characteristics, and market growth of the Digital Insurance Platform industry, and breaks down according to the type, application, and consumption area of Digital Insurance Platform. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Digital Insurance Platform in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
