Abstracts

Digital Led Retail Banking is part of a digital transformation strategy. Network security can be the biggest threat. Digitalization has eroded the barriers to entry for the banking industry. Once it is possible to think that only government or very wealthy organizations are possible, today's new technology wealth has created so many wealthy organizations that they can enter in a short period of time, and the regulations of these technology companies have been alleviated in order to operate banking services.

This report elaborates the market size, market characteristics, and market growth of the Digital Led Retail Banking industry, and breaks down according to the type, application, and consumption area of Digital Led Retail Banking. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Digital Led Retail Banking in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
