Abstracts

Duvet Covers is a type of bedding that is a soft flat bag filled with down, feathers, wool, or a synthetic alternative. It is protected with a removable cover, the duvet cover. The duvet set originated in Europe and was made from down feathers because of its usefulness as a thermal insulator. Adding a duvet to your bed makes the whole chore of making your bed a lot easier. It's a single covering instead of a combination of sheets, blankets, quilts and other bed coverings.

This report elaborates the market size, market characteristics, and market growth of the Duvet Covers industry, and breaks down according to the type, application, and consumption area of Duvet Covers. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Duvet Covers in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
