## Abstracts

Electronic dance music (also known as EDM, dance music, club music or simple dance) is a series of electronic music types of percussion, mainly used in nightclubs, carnivals and festivals. It is usually played by DJs who create seamless track selections, called mixes, from one recording to another.

This report elaborates the market size, market characteristics, and market growth of the EDM industry, and breaks down according to the type, application, and consumption area of EDM. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for EDM in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
