Abstracts

Educational toys are objects of play, generally designed for children, which are expected to stimulate learning. They are often intended to meet an educational purpose such as helping a child develop a particular skill or teaching a child about a particular subject. They often simplify, miniaturize, or model activities and objects used by adults. This report elaborates the market size, market characteristics, and market growth of the Educational Toy industry, and breaks down according to the type, application, and consumption area of Educational Toy. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Educational Toy in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
