## Abstracts

Eye masks, also known as sleep masks, are an affordable, natural way to help us get to sleep faster and stay asleep. They are typically made from fabric that is intended to cover both eyes, keeping all incoming light away from your eyes and to help induce a state of pure darkness. Eye masks have a comfortable, elasticated strap that holds the sleeping face mask in place and blocks unwanted light from your eyes.
This report elaborates the market size, market characteristics, and market growth of the Eye Mask industry, and breaks down according to the type, application, and consumption area of Eye Mask. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.
