Abstracts

False eyelashes or artificial eyelashes are artificial eyelashes used to beautify the eye. Generally, the eyelashes are lengthened and thickened to make the eyes look bigger, brighter, fuller and more radiant. False eyelashes have been around for a long time, and the records of false eyelashes can be found in ancient Egyptian and Roman literature as early as 2000 BC . The materials for making false eyelashes are made of plastic, cotton, feathers, etc., and the false eyelashes made with different materials have different effects (for example, exaggerated stage effects). Artificial eyelashes were especially popular in the United States in the 1960s, and the craze was greatly reduced. It was revived around the world in the late 2000s.
