Abstracts

Gap insurance pays for the difference between the value of a car at the time it’s totaled or stolen and the balance of its loan or lease. Though it seems to refer to that difference, “gap” actually stands for “guaranteed asset protection.” GAP insurance protects you when you make an insurance claim and receive a payout that’s less than the cost or value of the car when you bought it. It will pay you the difference so you don’t lose money.
This report elaborates the market size, market characteristics, and market growth of the Gap Insurance industry, and breaks down according to the type, application, and consumption area of Gap Insurance. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Gap Insurance in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
