Abstracts

The implementation of the European General Data Protection Regulations (GDPR) will take effect. As data privacy regulations increase, companies using personal data from European residents will have to follow and add another layer to the already complex data protection process. Violations may result in a fine of up to 4% of the annual turnover or 20,000,000 Euros, whichever is higher. The GDPR compliance solution allows organizations to simplify compliance and keep up with business changes. By performing data protection impact assessments, it is easy to investigate the GDPR compliance of new assets or projects.

This report elaborates the market size, market characteristics, and market growth of the GDPR Solutions industry, and breaks down according to the type, application, and consumption area of GDPR Solutions. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for GDPR Solutions in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
