Abstracts

Business process outsourcing (BPO) is a process that enables healthcare providers to select the most suited third-party vendors for specific business processes. This allows hospitals and medical professionals to spend their valuable time on patient care, over other mundane jobs in the office.
This report elaborates the market size, market characteristics, and market growth of the Healthcare BPO Business industry, and breaks down according to the type, application, and consumption area of Healthcare BPO Business. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Healthcare BPO Business in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
