Abstracts

At its basic level, “family care” means its exact meaning – providing health care in the patient's home. Family health care can include a wide range of care provided by skilled medical professionals, including professional care, physical therapy, occupational therapy, and speech therapy.

This report elaborates the market size, market characteristics, and market growth of the Home Health Care industry, and breaks down according to the type, application, and consumption area of Home Health Care. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Home Health Care in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
