Abstracts

Belt, refers to the leather belt. At present, the international community advocates environmental protection, so PU belts are the most popular, and the leather belt market is getting less and less. China is the world's largest exporter of belts. Belts exported to the EU and the US must meet stringent environmentally friendly non-toxic standards.

This report elaborates the market size, market characteristics, and market growth of the Leather Belts industry, and breaks down according to the type, application, and consumption area of Leather Belts. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Leather Belts in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
