Abstracts

Legal analytics is the application of data analysis methods and technologies within the field of law to improve efficiency, gain insight and realize greater value from available data.

Similar to business analytics (BA) in other sectors, legal analytics are used to yield actionable information that can improve processes and increase efficiency. Legal analytics are implemented to give a law firm a competitive advantage and drive corporate profits.

This report elaborates the market size, market characteristics, and market growth of the Legal Analytics industry, and breaks down according to the type, application, and consumption area of Legal Analytics. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Legal Analytics in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
