## **Abstracts**

Luxury refers to all that can be obtained that is differentiated, unique and exclusive. It does not respond to the demand, it does not satisfy the desires of the masses nor seeks positioning; it is a product or service that is offered to all but not all of them can reach. Likewise, luxury in the field of tourism takes shape to the extent that, rather than price, puts the emphasis on value, in what is now measured through the experience of the consumer.

This report elaborates the market size, market characteristics, and market growth of the Luxury Tourism industry, and breaks down according to the type, application, and consumption area of Luxury Tourism. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Luxury Tourism in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
