## Abstracts

Marine Base steering gears have been an indispensable part of a ship's machinery since the advent of the early ships which were operated by hand in steering the vessel. Furthermore, irrespective of the operation, type, and size of the ship, marine base steering gear integrated with rudder system helps in ship turning when required, thus defining complete turning mechanism.

This report elaborates the market size, market characteristics, and market growth of the Marine Base Steering Gear industry, and breaks down according to the type, application, and consumption area of Marine Base Steering Gear. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Marine Base Steering Gear in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
