## **Abstracts**

Massive multiplayer online (MMO) gaming involves several players playing different roles and strategies in a particular game from across the world. MMO are of different types such as role play games (RPG), first-person shooter (FPS), and real-time strategy (RTS) games. Developers are constantly developing new genres of games to break away from traditional ways of gaming. They are regularly creating sub-genres within the main genre. Adding elements into the MMO games has resulted in the formation of mixed and intricate combinations in the gaming world.

This report elaborates the market size, market characteristics, and market growth of the MMO Games industry, and breaks down according to the type, application, and consumption area of MMO Games. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for MMO Games in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
