## Abstracts

Organic perfume is a mixture of safe fragrant oils or pure aroma ingredients that are free from solvents, petrochemicals, dyes, toxic chemicals, alcohol, fertilizers, and pesticides. Organic perfumes are certified by the USDA certification body and vegan certified by PETA. Organic perfume is always manufactured by natural ingredients. This perfume is ideal for a person who is allergic toward different synthetic chemical compounds. Organic perfumes are completely natural products processed without chemicals. This product has gained a fastest growth in the perfume industry due to the rise in consumer awareness about its benefits. This perfume is ideal for sensitive skin due to its hypoallergenic property. Organic perfumes help prevent skin problems such as skin inflammation, itching, rashes, and discoloring. Additionally, these perfumes act as a natural skin care product. The usage of organic perfume is a recent practice as compared to conventional perfume in the beauty product industry. Therefore, demand for organic perfume is anticipated to increase during the forecast period.

The global organic perfumes market can be segmented based on product, packaging, process, distribution, application, and region. Organic perfumes are safe to use and emit a satisfactory and pleasant odor. Based on product, the market can be segregated into floral, citrus, woody, oriental, fruity, green, oceanic, spicy, and others. In terms of packaging, the organic perfumes market can be classified into glass bottle packaging, stainless packaging, and wooden material packaging. Based on process, the market can be segregated into handmade perfumes and processed perfumes. In terms of distribution channel, the organic perfumes market can be segmented into online distribution channel and offline distribution channel. The offline distribution channel segment can be further sub-segmented into hypermarket, supermarket, retail stores, and ecommerce distributors. Based on application, the market can be classified into

–skincare, car, residential, and commercial.

This report elaborates the market size, market characteristics, and market growth of the Organic Perfume industry, and breaks down according to the type, application, and consumption area of Organic Perfume. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Organic Perfume in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
