Abstracts

An outdoor watch is a watch that can be worn in a variety of sports or has one or more functions to meet the requirements of professional sports. It can provide detailed information about your environment during exercise, so it has great assistant and guidance meaning for outdoor enthusiasts. More specifically, an outdoor watch is not only a watch, but also a high-tech device. The outdoor watch is waterproof, shockproof, anti-shock and anti-friction. Also, it measures pressure, height, heart rate and direction. In addition, it may have other value-added features such as Tide Graph Display, computer operation, GPS and other emerging features. The current popular outdoor sports watches are made of high-quality stainless steel, titanium, aluminum, rubber, carbon fiber or ceramic alloy. Selecting sport watch with different material can display the wearers' unique personality.

This report elaborates the market size, market characteristics, and market growth of the Outdoor Watch industry, and breaks down according to the type, application, and consumption area of Outdoor Watch. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.
