A contract manufacturing organization (CMO), sometimes called a contract development and manufacturing organization (CDMO), is a company that serves other companies in the pharmaceutical industry on a contract basis to provide comprehensive services from drug development through drug manufacturing. This allows major pharmaceutical companies to outsource those aspects of the business, which can help with scalability or can allow the major company to focus on drug discovery and drug marketing instead.

This report elaborates the market size, market characteristics, and market growth of the Pharma Contract Manufacturing Organisations (Cmos) industry, and breaks down according to the type, application, and consumption area of Pharma Contract Manufacturing Organisations (Cmos). The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.
