Abstracts

Procurement as a Service is an outsourced procurement model that combines technology, people and expertise to handle some, if not all, of your organization's procurement functions. It helps them choose to buy categories and assign category experts to handle purchases in these categories.

This report elaborates the market size, market characteristics, and market growth of the Procurement as a Services industry, and breaks down according to the type, application, and consumption area of Procurement as a Services. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Procurement as a Services in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
