Abstracts

Value-added snacks containing protein, claimed to provide added protein from animal sources such as meat, fish, poultry or plant sources such as lentils and protein-rich seeds, classified as protein snacks. The market's demand for this enhanced or functional snack choice is a trend among global consumers, especially among urban residents, because their busy lifestyles do not provide adequate nutrient intake through traditional eating habits.

This report elaborates the market size, market characteristics, and market growth of the Protein Snack industry, and breaks down according to the type, application, and consumption area of Protein Snack. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Protein Snack in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
