## Abstracts

Self-service business intelligence (BI) is used to assemble business data and find solutions in a variety of ways. Self-service BI tools are primarily used by companies to systematically organize large amounts of company data. The main purpose of using self-service BI tools is to provide business executives and managers with easy-to-understand access to company information.

This report elaborates the market size, market characteristics, and market growth of the Self-Service Business Intelligence industry, and breaks down according to the type, application, and consumption area of Self-Service Business Intelligence. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Self-Service Business Intelligence in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
