Abstracts

A shawl is a simple item of clothing, loosely worn over the shoulders, upper body and arms, and sometimes also over the head. It is usually a rectangular or square piece of cloth, which is often folded to make a triangle, but can also be triangular in shape. Other shapes include oblong shawls.

This report elaborates the market size, market characteristics, and market growth of the Shawl industry, and breaks down according to the type, application, and consumption area of Shawl. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Shawl in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
