Abstracts

Sheepskin and lambskin are the hides of sheep and lambs. Sometimes sheepskin is called lambskin, even if it is not from a lamb. Sheepskin and lambskin are the skins with fur. Without the fur, they are called sheep leather and lamb leather. Sheepskins and lambskins are often sold as single pelts. They can be used for a pram or a buggy or to keep seating areas of a chair warm and soft. However, their warmth and softness also make them ideal for lambskin coats, jackets, gloves, caps, shoes and boots in winter. This report elaborates the market size, market characteristics, and market growth of the Sheep or Lamb Skins (Without Wool) industry, and breaks down according to the type, application, and consumption area of Sheep or Lamb Skins (Without Wool).
