Abstracts

Social software is a category of software systems that primarily functions to allow user collaboration and communication. Social media advertising software allows users to place ads on Twitter, LinkedIn, Facebook, and/or other social media platforms. Some social ad campaigns are designed to promote brand awareness, while others are direct response/click-through ads that aim to generate leads or revenue.

This report elaborates the market size, market characteristics, and market growth of the Social Advertising Software industry, and breaks down according to the type, application, and consumption area of Social Advertising Software. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Social Advertising Software in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
