## Abstracts

Specialty malts are any malts other than standard malt. They are basically produced by manipulating the process of drying. Specialty malts provide exclusive characteristics that make craft beer with improved features like increased color and flavor, extended shelf life of a product, improved taste, rise in foam and foam retention, and ultimately the brewing performance.

This report elaborates the market size, market characteristics, and market growth of the Specialty Barley Malt industry, and breaks down according to the type, application, and consumption area of Specialty Barley Malt. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Specialty Barley Malt in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.

In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
