Abstracts

A splitboard is a snowboard that can be separated into two ski-like parts used with climbing skins to ascend slopes the same way alpine touring or telemark skis are. The two halves can then be connected to form a regular snowboard for descent
This report elaborates the market size, market characteristics, and market growth of the Splitboard industry, and breaks down according to the type, application, and consumption area of Splitboard. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Splitboard in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
In addition, chapters 8-12 consider the impact of COVID-19 on the regional economy.
