Abstracts

Magnetic tape storage is a system that enables the storage of digital data on a magnetic tape. It is based on one of the oldest concepts of digital information storage. Though tape storage technology has been displaced as a primary back-up storage medium, it still remains well-suited for the purpose of archiving digital data owing to its long-term durability, low cost and high data storage capacity.

This report elaborates the market size, market characteristics, and market growth of the Tape Storage industry, and breaks down according to the type, application, and consumption area of Tape Storage. The report also conducted a PESTEL analysis of the industry to study the main influencing factors and entry barriers of the industry.

In Chapter 3.4 of the report, the impact of the COVID-19 outbreak on the industry was fully assessed. Fully risk assessment and industry recommendations were made for Tape Storage in a special period. This chapter also compares the markets of Pre COVID-19 and Post COVID-19.
